Introductory

The present volume constitutes the 1927 edition of Henderson's Directory of Saskatoon. The work embodies a complete epitome of the civic, commercial, social and industrial interests and activities of the municipality. It is a modern Directory in all its parts, and includes all the essential features which have been proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 25 to 72, and contains data concerning City, Provincial and Federal Government offices, commercial organizations, cemeteries, churches (denominational and miscellaneous), colleges and schools, hospitals and homes, building exchange and associations, institutes and societies, libraries, military organizations, public schools, secret societies, etc.

THE STREET and AVENUE GUIDE is embraced in pages 73 to 146; in this feature the names of all streets and avenues are arranged numerically and alphabetically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

THE ADVERTISING occupies pages 1 to 24; this section of the Directory, printed on colored paper, includes numerous advertisements of the leading manufacturing, business and professional interests. A casual perusal of these advertisements will picture many interesting phases of the city's activities. They are not display advertisements, primarily, however, but rather are reference advertising at its best. The need for this kind of information readily at hand is very great, and the general appreciation of this need is evidenced by the liberal patronage the city Directory enjoys in many and varied lines of trade.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations covers pages 149 to 451.

THE CLASSIFIED BUSINESS DIRECTORY occupies pages 453 to 556, and exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

ADVERTISING SASKATOON

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Saskatoon, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory and also the public-spirited and progressive business and professional men for support given in the way of patronage.

The Directory estimate of population is based on the actual number of names contained in the book, which is multiplied by a common multiple to allow for the married women and small children whose names do not appear.

Based upon the names contained in the pages of this book, it is estimated that the population of Saskatoon is 39,704. This includes considerable territory beyond the city limits, which is canvassed in order that the names of all people doing business in Saskatoon may be obtained for the Directory.

Respectfully, The Publishers,

HENDERSON DIRECTORIES LIMITED.

August, 1927.

City of Saskatoon

Saskatoon is situated in Township 36, Range 5, west of the Third Meridian, on the banks of the South Saskatchewan River. It is the geographical and commercial centre of Central Saskatchewan. It is served by the Canadian National and Canadian Pacific Railways. As the site of the University and Agricultural College, Saskatoon is the educational headquarters of the Province.

The portion of the city on the east side of the river was orginally known as East Saskatoon, but as the original villages grew and confusion between the post offices resulted, the name "East Saskatoon" was changed to Nutana, a word which is claimed by some to have had an Indian origin, meaning "first born", because it was the first settlement.

The name Saskatoon is derived from the Indian Cree name "Missask-qua-too-mina," or "Mis-sas-a-too-mina," and sometimes contracted into "Saskatoomina." ...This word is plural.... The singular is secured by dropping the final "a." ...The name was given by the Indians to the berry which is found in such profusion in this vicinity and commonly referred to now as the "Saskatoon Berry," or "Saskatoons." According to a member of the original survey party, the Indians used to a member of the original survey party, the Indians used to gather large quantities of these berries and walk through the camps selling them, crying which sounded to the members of the party like "Saskatoons, Saskatoons."

The city lies 216 miles north of the boundary between the United States and Canada, 140 miles from the western and 215 miles from the eastern boundary of the Province, so that its position is central. It is the only large city in the direct line between Winnipeg and Edmonton, being almost midway between the two, 450 miles northwest of Winnipeg and a little over 300 miles southeast of Edmonton.

Five bridges, the newest being a handsome arched structure of reinforced concrete, costing upwards of $500,000, cross the river within the city limits. Three of these bridges join the central portions of the city, two of them being for vehicular and pedestrian traffic, while the third carries the Canadian National Railway tracks and has a footpath alongside. The remaining two are railway bridges, one carrying the Canadian Pacific and the other the Canadian National Railway rails. To the east of Saskatoon, the modern city resulting from the uniting of the villages of West Saskatoon, Nutana and Riversdale and their subsequent allied growth and about a mile away lies the town of Sutherland, where are the C. P. R. roundhouse and car repair tracks. Sutherland is an incorporated town but is united to Saskatoon by street car tracks, as well as by rail, and this route is part of the regular city service.

The natural fertility of the surrounding district which is well settled and the unique position of Saskatoon as a distributing point are the main contributing factors to the city's prosperity and growth.

The townsite was surveyed in 1886, but the first railway did not come in until 1892. In 1899 Saskatoon consisted of a few houses on the east side of the river, while on the west side was the station house, the section foreman's residence, the Royal Northwest Mounted Police

Barracks, a stone building, a hotel and about six other houses and shacks. About this time property in what is now the central portion of the city sold for $45 for 75 feet. In 1901 Saskatoon was incorporated as a village, and in 1902 the first weekly newspaper was published bearing the title of "Saskatoon Phoenix." In 1903 the town charter was obtained. In 1906 Saskatoon became a city the population being estimated at 5,000.

Following the formation of the Province of Saskatchewan in 1905, the locating of the capital and the university became live public questions. It was believed at that time that owing to its central location Saskatoon would be chosen as the capital, but eventually a compromise was reached whereby Regina became the seat of government and the Provincial University was placed at Saskatoon.

From 1906 onwards expansion was very rapid, becoming phenomenal about 1912, until today Saskatoon stands a city of handsome buildings and well paved streets, along the principal ones of which electric cars run. In the residental sections the boulevarding system obtains, giving the streets a very attractive appearance. The broad South Saskatchewan River, which flows through the middle of the city between high banks covered with an abundance of trees, shrubbery and other natural growth, besides providing an unlimited supply of purest water, passing through a modern filtration plant, lends a pleasing aspect, eliminating the tiresome monotony usually associated with centres of population established upon the prairies.

Not only is Saskatoon in the centre of Saskatchewan, but it is also in the centre of Western Canada. By placing a finger on the centre of any map of Western Canada one cannot avoid placing it on Saskatoon.

Saskatoon is the only city in Central Saskatchewan. There being no other large point near, the vast surrounding territory is wholly hers because she has the competitive railway facilities and distributing freight rates to control is absolutely as follows:

On carloads shipped in Saskatoon's wholesale distributing territory extends to about 48,600 square miles, stretching far into Alberta—indeed to within 82 miles east of Edmonton—and even now embracing over two hundred points on no fewer than 2, 225 miles of operating railways—a distance only 27 miles shorter than that from Montreal to Calgary, per C. P. R.

On goods manufactured locally, such as flour, Saskatoon controls a distributing area of about 70,000 square miles, within which there are at present 300 bright young towns and villages.

Saskatoon has expended very large sums of money upon her schools varying from $118,000 to $156,000 on each building. The citizens favor municipal ownership so far as it is deemed practicable and judicious, and now control their water, light, power, street car system, sewerage and hospitals.

The splendid facilities now operating to Saskatoon, both in the form of railways and natural advantages, are more than sufficiently important to win her distinction as a great national commercial centre. The three main lines of the three big Canadian Railway companies are merely the framework upon which an intricate interthreading of branch lines is being woven as circumstances permit.

COLLEGIATE INSTITUTES

Nutana Collegiate Institute, corner 11th Street and Victoria Avenue. Bedford Road Collegiate Institute on Bedford Road and Avenue H.

The Nutana Building, erected in 1910, is still one of the best buildings of its kind in the west, commanding from its site on the high

bank of the Saskatchewan River a fine view of the city and surrounding country. This building has full basement, three storeys, full gymnasium and an auditorium capable of holding 500 people.

The Bedford Road building, first building erected 1923, has partial basement, manual training room and 17 classrooms: second building added 1926, comprises a spacious auditorium-gymnasium and six classrooms. The building as now completed is as completely fitted as any building of its purpose in Canada. It accommodates two distinct schools, the academic and complete commercial school.

EMMANUEL COLLEGE

In Affiliation with the University of Saskatchewan

The College is governed by two bodies, a Statutory Council, composed of ex-officio and elected members. Its appointment is regulated by canon and the elected members retire by rotation. Also by a Board

of Governors appointed by the Colonial and Continental Church Society of London, England. The Council grants standings in Theology, and the Board controls all matters affecting the welfare of the College, and the Proceedings of the College are reported Annually to the synod of the Diocese of Saskatchewan. The Educational Committee is made up of the Faculty, together with the Bishop, and three clerical and three lay members of the Board of Governors.

The College provides (1) an associate course in Theology, (2) a pass course leading to the Testamur, (3) a course leading to the Licentiate of Theology, and (4) a course leading to the Degree of Bachelor of Divinity.

SASKATOON PUBLIC LIBRARY

312 Twenty-first Street East

Hours of Opening

Reading Room—9.30 a.m. to 10 p.m. (July to August 9 p.m.)
Lending Department—10 a.m. to 8 p.m.

Membership Privileges

The Library is free to all who live or work in Saskatoon. Books may be borrowed at once on completing the necessary application form guaranteed by a ratepayer.

Visitors to the City are permitted to borrow books on depositing the sum of $3.00, which sum is returned when the use of the library is discontinued.

Administration

The library is administered by a board consisting of seven members appointed by the City Council and the Mayor, who is a member ex-officio. Only one member may be an alderman. The city is empowered by the Provincial Library Act to levy, in addition to all other taxes, a rate not exceeding one mill on the assessed property.

The Board at present consists of the following: Alderman John Cairns, H. J. Jordan, Mrs. E. R. Myers, W. E. Brunskill, B. A. Anderson, and Dr. W. A. Carrothers.

Staff

Librarian—David M. P. Murray
Assistants—Miss Marie Shannon, Kathleen Gamble, Chrissie Lynn, Florence Hamilton and Isabel McLean

Lending Department

This department has now over 14,000 volumes available for lending, Literature, Art, History, Biography, Travel and Useful Arts, Fiction and Juvenile being especially well represented. It is the aim of the library to make its collection of technical books as complete as possible.

Reference Department

The Reference Library is a separate collection of books. This department is designed to meet the needs of students and workers in every field who need special data of any kind. Telephone and mail enquiries receive prompt attention.

System of Street Names and Numbering

Streets run east and west, Avenues run north and south.

North and west of River houses are numbered odd on west side of avenues and south side of streets; south and east of River houses are numbered odd on east side of avenues and north side of streets.

Streets are called East and West with Avenue A and Lorne Ave., which is a production of Avenue A across the River, as the dividing line. Avenues are called North and South with Twenty-second Street as the dividing line. In Nutana Aird Street is the dividing line.

The avenues west of Avenue A, with a few exceptions, are called by letters, Avenue W, a mile and a half west of Avenue A being the western city limits.

The avenues east of Avenue A to the River are called by numbers, with the street skirting the River called Spadina Crescent.

The avenues on the south and east sides of the River are generally called by names.

The streets on the south and east sides of the River are called by names; commencing at the southerly city limits, one mile north of the south city limits, however, they are generally numbered from 1st to 18th Streets; this is not regular and there are some streets called by names.

North and west of the River the streets are named at the south city limit and northerly for a mile and a half where numbers are used, commencing with 11th Street numbers are used from there to the north city limti half a block north of 37th Street. In this district there are also exceptions where some streets are known by names as in the City Park District where names are used from Queen Street northward.

The system of house numbering adopted is the Decimal or Philadelphia System, an even hundred numbers being allotted to each block. The one hundred block north, south, east or west commencing at the dividing line above referred to.

In the business district a house number is allotted for each 12½ feet and in the residential district a number for each 25 feet.

The arrangement in street and avenue directory is in the following order: Alphabetical Streets and Avenues; Avenues A to Z; Numerical Avenues and Streets.

The arrangement by direction is East, West, South, North.

Where the odd and even numbers on all avenues or streets are separated, the east side on avenues will appear first and the south side will appear first on streets.
